

Maximiliano Gonzalez

About

I am Maximiliano Gonzalez a Chemical Engineer graduated from the National University of Cordoba in Argentina.

These years in the business sector have allowed me to develop skills in decision-making, team management and understanding of complex production processes. Experience in management of quality standards like 9001 and BRC. I am currently involved in the implementation of a manufacturing execution system or commonly known as industry 4.0.

I consider myself a person with great adaptability and motivation towards learning. For this reason, I am currently continuing my professional training by conducting postgraduate study in management.
